# Harvesting Container Sanitization Log

TOF-8.1, TPH-5.2, All compounds used to clean or sanitize food contact containers, tools, utensils, equipment or other food contact surfaces are approved for that use by the US EPA, FDA or other prevailing agency. (TPH-5.2) Actual use conforms to label directions. The operation has written procedures for cleaning and sanitizing of produce food contact containers, requiring that bulk bins, gondolas, totes and trays are cleaned and sanitized periodically and is documented.

| Date Cleaned | Number of Containers | Type: Container Pallet Bin | Checked | Cleaned | Sanitized | Product Used/ Rate | Employee's Initials |
